|---------|------------------|------|-------------------------------|
|         | \$173,759        |      | ARPA                          |
|         | \$145,500        |      | Revised Sales Tax Calculation |
|         | <b>\$272,400</b> |      | ARPA                          |

## Additional Information

In July 2022, the funding for the 6 CARES Act-funded DACC case managers will expire. The total cost of these positions is: **\$173,759** with continued fringe benefits. Currently, these case managers only serve individuals at the pro-lodges. **These positions currently provide rapid rehousing services to clients.** If these **6 DACC case manager** positions continued to receive funding, they could expand their case management services to address the DACC's case management waitlist. **Should these positions be funded, they shall continue to provide rapid rehousing services when dictated by an individual's coordinated assessment.** In addition, one or more of these positions could serve individuals at satellite campuses throughout the city. In addition, DACC only owns 5 vehicles and is currently renting 13 vehicles to serve clients. In the April 2021 memo, DACC identified a need for **3 vehicles** at a total cost of **\$145,500** (\$45,000 per vehicle; annual fuel and maintenance costs estimated at \$3,500 per vehicle). A strength of DACC's case management services is the ability to transport clients to access services and appointments. Ideally, each case manager would have a vehicle they have access to during business hours due to productivity, flexibility, and client care. DACC has been able to work creatively with schedules with having one vehicle per every two case managers. Per the staff memo, **if 6 new internal case managers are hired, 3 new vehicles would be needed for client support.** Further, DACC's Intensive Case Management program provides intensive case management and access to full wrap-around support including mental health services, substance use treatment, peer support programming, and access to housing. **Each case manager will use approximately \$272,400** in social services **during this time period** for the individuals they serve.
